

## Our Commitment to Customer Service

It's What We Do

At Suburban, every employee is your customer service representative. We strive to improve our systems and become more efficient in order to better serve our customers' needs and keep our prices competitive.

In response to a recent survey, a respondent shared: "When in need of fasteners, we Bolt to the phone to call Suburban!" Another reported that their sales representative: "Offers service with a smile and is always quick to help, making us feel like we are Suburban's most important client."

We are always looking for a better way to serve our customers, and employees can often be overheard saying: "It's what we do!"

# Industrial Nuts, Bolts, Fasteners, and More

# About SUBURBAN BOLT AND SUPPLY CO.™

Suburban Bolt and Supply is a family-owned and operated business, founded in 1971 by Jerry Kelley and Carl "Pete" Peterson with the vision that the Detroit area needed a supply of quality fasteners to meet the demand of the growing automotive industry. From the humble beginning with two customers being served out of Jerry's garage, the company focused on certain core values with customer service being paramount.

This focus has allowed the company to prosper and grow. It has also driven the need to supply our customers with a growing product line. Today, Suburban Bolt and Supply is a modern and streamlined full-service provider of industrial products with multiple locations.

As much as we have evolved, our core values and focus on extreme customer service have never wavered. Suburban stands out from other industrial suppliers because of our unfaltering focus on meeting every customer's needs ... whatever it takes.
